

PREDICTION EXAMPLES

Examples of classification results generated by the proposed CNN model

EXAMPLE 1: CLEAN WATER (CORRECT PREDICTION)

Input Image

Model Prediction

Predicted Class:

CLEAN

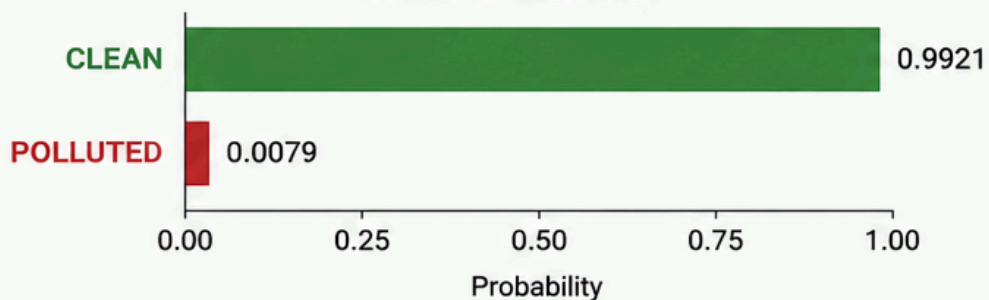

Confidence:

99.21%

Actual Class:

CLEAN

Prediction Probabilities

EXAMPLE 2: POLLUTED WATER (CORRECT PREDICTION)

Input Image

Model Prediction

Predicted Class:

POLLUTED

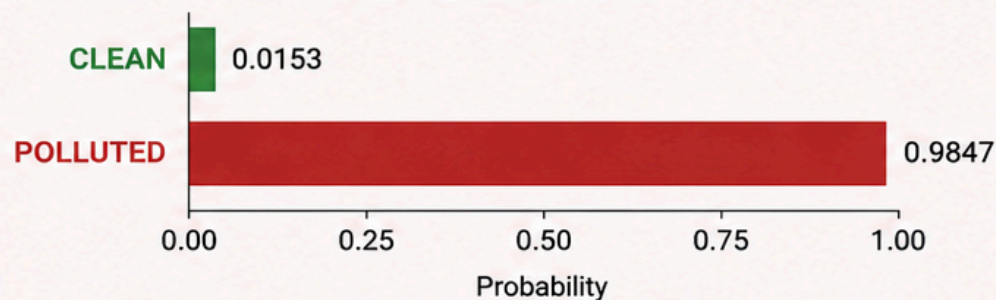

Confidence:

98.47%

Actual Class:

POLLUTED

Prediction Probabilities

The CNN model correctly classifies both clean and polluted water images with high confidence.
